

A SINGULAR JOURNEY

Remember.

Sacred light

Fills the

Metaverse, drifting in and around

Edges of the many

Universes

It spawns – ours among the

Number. We are part of

The All.

The All is the

All is the

Source is the

Infinite is the

Absolute is the

Comprehensive Ultimate

Consciousness is the

Incomprehensible totality is the

Greater Truth,

## SINGULAR JOURNEY Windom

Beyond definition by

Words,

Which only limit its

Vastness.

Streaming through the

Full emptiness of what we call

Boundless, limitless space,

We occupy the

Sphere of

Eternity:

Observers,

Creators,

Integral parts of the

Music

Played,

Playing,

Perfect.

Primal consciousness,

Restless

For even more

Expansion,

## SINGULAR JOURNEY Windom

Passionate and

Fiery in intention for

Growth,

Core of the

Absolute carried as pilot light,

We choose to be a

Flame of desired height ignited from the

Fire of God. Twinned, we spiral downward in our

Yin/silver/moon

Yang/gold/sun

Couples;

We are bound by love and

Separated by desire for

Individuation.

The essence of

Consciousness is the

Power of

Love.

Leaving with regret the

Paradox of silence and sound,

Meeting duality head on,

Intending harmony but

SINGULAR JOURNEY Windom

Confronting the conflict,

In a frequency

Chosen, not random,

Purposeful, not idle,

We carry the inner knowing innate to

Source as a bridge

Between the worlds, and we

Dense and

Condense into human form.

Remember.

We ebb and flow from one

Time

Into another,

Leaving a mark on the

Energy fields, the

Soup

In which we swim, each time we

Touch.

From the garden in the non-physical world we

Fall,

SINGULAR JOURNEY Windom

Eager to be human,  
Fairly salivating with delight at the  
Garden, the new garden, to  
Cultivate in the  
Flesh;  
We hurtle into three dimensions,  
Choices made,  
Karma set,  
Issues decided,  
In order to bring back to the  
Totality of the  
All  
Richness  
Dreamt but  
Undreamt.

We have chosen.

Forgetting that the perspective of the  
Human,  
The passage of the  
Spirit through  
Human experience, is

## SINGULAR JOURNEY Windom

Occupying duality:

Joy and sorrow

Pleasure and pain

Dark and light, we still

Know,

Despite the difficulty of the

Journey, that

We must have both aspects of polarity for the

Picture of Self

To be complete.

Remember.

In the beginning....

Ah, but

Remember,

There is no

Beginning...

Everything is.

We create reality as we go,

This planet, solar system,

## SINGULAR JOURNEY Windom

Galaxy,

Universe -

All parts of the

All.

In the curve of

Space and

Time

We stand,

Formed of

Energy –

A flowing river of

Light, but

Formless

Vis a vis our

Human understanding.

We choose.

We gather

Stardust

To create

Shape –

## SINGULAR JOURNEY Windom

Earthdust

With which to mix the

Stardust,

And we choose to

Float and

Settle

Into an embodied

Self.

Mental Physical Emotional Spiritual....

We explode into

Incarnation,

Consciousness

Flowing through, but

Not contained in,

Physical structure,

Soul intent on

Growth,

Experience,

Service.
